About IP Asset Ventures:

IP Asset Ventures is an advisory practice specialising in the life science and healthcare sectors. Uniquely positioned at the interface of industry and academia, we provide rigorous and implementable advice to a diverse client base, spanning SMEs, tools and technologies companies, and life science focussed investors. An opportunity has recently become available for a Junior Intellectual Property (IP) Analyst to join our practice, with scope for successful candidates to enrol in our Patent Attorney Training Scheme.

Position:

- Junior IP Analyst

Start Date:

- Flexible

Location:

- Oxford, UK

Requirements:

- Upper Second or First Class undergraduate degree in a STEM subject (predicted or achieved)
- Life science or healthcare experience
- Demonstrated technical and analytical capability
- Graduate or final year of university

Preferred:

- Technical degree, e.g. Biochemistry, Bioengineering, Mechanical Engineering
- Experience in biotechnology, regulation or related
- Commercial awareness and/or application of scientific knowledge in a business setting
- Excellent communication skills

Benefits:

- Competitive salary
- International travel opportunities

IPAV Limited, operating as IP Asset Ventures, Company Registration Number 07286598

- Potential for remote working arrangement
- Work with a diverse local and global client base

Description:

The analyst will join a team of both qualified consultants and patent attorneys working on a broad range of high-profile client projects. Whilst gaining key industry insights, Junior IP Analysts will actively contribute to core projects and provide support to senior patent attorneys from the outset. They will receive extensive training and development in intellectual property, including the use of commercial intelligence tools for intellectual property and clinical trial landscaping, learn how to appraise client inventions and extract strategic advantages, and gain key competencies in drafting patent applications. Junior IP Analysts will quickly become an integral part of the team and promising candidates will be supported through our in-house Patent Attorney Training Scheme. Significant opportunities for international travel and interaction with industry and academic thought leaders will be available in the position.

Subject to performance, Analysts are expected to progress to Associate level within a one to two year timeframe.
